

IGNITERS

Diamondback Industries has been a tool and ballistics innovator for over 20 years. Our igniters are manufactured in the USA. Our unique formulation enables our igniters to burn at a hotter output for a longer duration to reduce the chance of a non-ignition.

- GO-Style Igniter
- BP-3 Igniter
- BP-4 Igniter
- Secondary Igniter

APPLICATIONS

Vertical, deviated and horizontal wells requiring zonal isolation during multistage stimulation

BENEFITS

- Consistent firing
- Competitive pricing
- Proprietary incendiary mainload
- Burns hotter and longer than black powder

FEATURES

- RF safe certified
- Special composition mixture
- Rated to withstand 400°F for one hour
- Quantity 20 per box
