
Working Together to Provide Quality and Excellence

The tools and ballistics we manufacture at Diamondback Industries are a great source of fulfillment for our organization. We remain steadfast in our commitment to serving our customers with integrity and purpose.

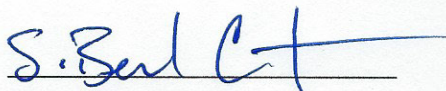

Working as a team, we ensure our company's goals for quality, efficiency, safety and customer satisfaction are met. Diamondback Industries is committed to the safety of the company's operations including the health and safety of its employees and customers.

We continually strive to enhance our service levels through open channels of communication with our customers. Our quality policy is guided by the zero-defects philosophy, putting emphasis on avoiding faults by using preventative methods to manage production processes. Our customers' demands are what drive our organization and provides the basis for our continual improvement and to define measurable quality objectives.

Customer Satisfaction is our main priority. We want to be our customers' preferred supplier. In doing so, we strive to provide our customers the products they need when they need it with the highest quality. This Quality Policy is committed to the following:

- Consistently meeting our customer requirements/expectations,
- Always providing our customers with the best products and services available,
- Continually improving our Business Management System and services to our customers, and
- Adhering to all Customer, Statutory, Regulatory and Interested Parties requirements.

Based on our Quality Policy, which is available to relevant interested parties upon request, our Quality Objectives have been established to strive towards our goals of continuous improvement, quality, efficiency, safety and customer satisfaction. They are defined in QM-100 (Appendix F, Target Attainment Plan (TAP)).

A handwritten signature in blue ink, appearing to read "S. Beal", written over a horizontal line.
